

Construction Safety Net

Double Plastic® construction safety net is manufactured from 100% virgin high density polyethylene.HDPE is a highly crystalline, non-polar thermoplastic resin. This product is white powder particles, non-toxic and tasteless. It has good heat resistance and cold resistance, good chemical stability, but also has high rigidity and toughness, good mechanical strength.

• Product Description

The Double Plastic® construction safety net has small specific gravity, high strength, good wear resistance, high elongation and strong durability.

Construction Safety net must be checked frequently when in use, and records of use should be tracked. Safety nets that do not meet the requirements should be dealt with in a timely manner. When not in use, it must be properly stored and kept to prevent moisture and mildew.

• Construction Safety Net Specification

Product Name	Construction Safety Net
Material	HDPE +UV Stabilized
Size	Custom Size Accepted
Usage	Safety Protection
MOQ	1 Ton
Using life	3~10 Years
Colour	Green Brown Black White Orange
Sample	Available
Packing	PVC Bag
Weight	60g/sqm--300g/sqm
